

LATAM Fund Corpus — Talent-Team Outreach (v1)

Purpose: Funds whose platform/talent function brokers senior operators into portfolio companies. The ask is a learn-more call and a spot on their operator bench, not an application.

Anchor geography: Buenos Aires. Proximity tiers: BA-local > Montevideo/Santiago (short hop) > São Paulo/Mexico City (regional) > US-LATAM bridge (remote-compatible).

Test for inclusion: Does the fund (a) back scaled companies where a GM / Strategic Ops / CoS role is real, and (b) have an identifiable person who handles talent or portfolio operations? If both, it's in.

Fit columns:

- **Channel fit** = how well this fund's portfolio maps to your function/level (CoS, GM, Strategic Ops at growth-stage)
- **Geo fit** = physical proximity / remote-from-BA compatibility
- **Cross-border edge** = whether your US-LATAM bridge profile is a *specific* asset here

Status legend (to fill in Cowork):  not started ·  contact identified ·  warm path found ·  outreach sent ·  call booked

TIER 1 — VC platform/talent teams (primary channel)

These are the A-tier. Developed people functions, scaled portfolios, exactly the operator-brokering behavior you want.

Fund	HQ / Offices	AUM	Portfolio anchor	Talent function (named role to find)	Channel fit	Geo fit	Cross-border edge	Status
monas hees	São Paulo + Mexico City	~\$430M	Slope, Music.ai, Flash, Rappi, Loggi	Strongest people function	High	Regional	Med	

Fund	HQ / Offices	AUM	Portfolio anchor	Talent function (named role to find)	Channel fit	Geo fit	Cross-border edge	Status
				found: Head of Talent Acquisition, Partner –People (org dev), Head of Community & Talent				
Kaszek	São Paulo, Mexico City, Montevideo	~\$3B	Nubank, Kavak, Creditas, Pomelo, Yuno	2x Talent Associate + dedicated growth team (talent/tech/marketing/distribution)	High	Montevideo = short hop to BA	Med-High	
Valor Capital Group	NY + São Paulo	~\$1.5B +	US-LAT AM "bridge" thesis fund	Platform /talent lead (find)	High	Remote-compatible	Highest — bridge thesis = your exact profile	

Fund	HQ / Offices	AUM	Portfolio anchor	Talent function (named role to find)	Channel fit	Geo fit	Cross-border edge	Status
Atlantico	São Paulo (pan-regional)	~\$400M +	Pan-LATAM growth	Platform lead (find)	High	Regional	Med	
NXTP Ventures	Buenos Aires (founding)	~\$200M +	B2B/SaaS LATAM, AR roots	Platform/ops lead (find)	Med-High	BA-local	Med	
Nazca	Mexico City	~\$200M +	Mexico/LATAM consumer+fintech	Talent/platform lead (find)	Med-High	Regional	Med	
QED Investors (LATAM)	Remote + regional	Large (fintech-focused)	Fintech depth across LATAM	LATAM platform/talent (find)	High (if fintech)	Remote-compatible	Med	
Globalt Ventures	Buenos Aires (Globalt)	Corp VC	AR-rooted tech	Venture s/ops contact (find)	Med	BA-local	Med	

TIER 2 — Growth equity / late-stage (operator roles are real here)

Growth-stage funds hire GMs and Strategic Ops into scaling companies. Less "talent bench," more direct portfolio placement, but the roles are bigger.

Fund	HQ / Offices	Focus	Portfolio anchor	Channel fit	Geo fit	Status
Riverwood Capital	Menlo Park + São Paulo	High-growth tech, LATAM	Tech growth equity	High (GM/Ops)	Regional/remote	
General Atlantic (LATAM)	São Paulo + global	Growth equity	Scaled tech	High	Regional	
SoftBank LatAm Fund	Miami + São Paulo	Growth	Ualá, large LATAM tech	Med-High	Remote-compatible	
LCatterton LatAm	Regional	Consumer growth	Consumer brands	Med	Regional	

TIER 3 — Buenos Aires / Southern Cone private equity (you asked for PE)

These are classic PE: buyout, turnaround, operating-partner model. Different texture from VC — they value operators who can sit *inside* portfolio companies as GM / COO / strategic operator during value-creation. Your JD/MBA/MPP + operating background reads well here. **These are physically in BA**, which is their biggest advantage for you.

Firm	HQ / Offices	Model	Sectors	Why it fits you	Geo fit	Status
Southern Cross Group	Buenos Aires + Rio, Santiago, Bogotá, Mexico City, Uruguay	Active/operational PE, "synergistic with mgmt"	Multi-industry	Explicitly operating-management-led; operator-partner culture	BA-local	

Firm	HQ / Offices	Model	Sectors	Why it fits you	Geo fit	Status
Victoria Capital Partners	Buenos Aires (Bouchard 547) + region	Disciplined LatAm PE	Consumer, healthcare, fin services, agribusiness	One of the most established SA teams; works closely with mgmt teams	BA-local	
Grupo Pegasus / Pegasus Capital	Buenos Aires	PE, retail/entertainment/turnaround	Retail, consumer	BA-rooted, turnaround-operator model	BA-local	
Linzor Capital Partners	Santiago + AR presence	Hands-on mid-market PE	Retail, education, biz services	Operational-improvement model = strategic-ops fit	Regional (AR presence)	
Advent International (LATAM)	São Paulo + region	Large-cap PE	Fin/payments (Prisma), broad	Big mandates, operating-partner track	Regional	
The Carlyle Group (S. America)	São Paulo	Large-cap PE	Broad	Operating-partner model	Regional	

How to work this corpus in Cowork

For each row, the LinkedIn legwork produces four fields:

1. **Named contact** — the actual talent/people/platform person (Tier 1), or a partner/operating-partner + HR lead (Tier 2/3). Not "contact us."
2. **LinkedIn URL** for that person.
3. **Warm path?** — cross-reference against your Anzu + JPM + DoD networks. A warm intro to a platform team is worth 10 cold notes. *This is your standing gap — close it here first.*
4. **Notes** — any signal (recent role they placed, a portfolio company hiring a GM, shared connection).

Structure the output identically to your existing `results/joey/` files so it slots into the pipeline.

Sequencing recommendation

1. **Warm-path pass first** across all three tiers (Cowork). Sort by who you can reach through a real connection.
 2. **BA-local first for cold outreach:** NXTP, Globant Ventures, Southern Cross, Victoria, Pegasus. Proximity is a genuine differentiator and an easy opener ("I'm relocating to BA").
 3. **Then the bridge-thesis funds:** Valor especially — your US-LATAM profile is the asset they're literally built around.
 4. **Then the scaled VC platform teams:** monashees, Kaszek — highest channel fit, slightly more competitive bench.
-

v1 — built from current public data. Tier 1 talent functions for monashees and Kaszek are confirmed; PE firms confirmed BA-based. Remaining named-contact and AUM fields are Cowork fill-ins.
